

iO Dock Pro Audio Dock For iPad

Using iPad (3rd generation)? Click [here](#) for adapter info.

Questions about iOS 5? Click [here](#).

Connect all of your audio gear to the entire world of apps for iPad.

The iO Dock is the first device that enables anyone with an iPad to create, produce, and perform music with virtually any pro audio gear or instruments. The iO Dock is a universal docking station specifically designed for the iPad, and it gives musicians, recording engineers, and music producers the connectivity they need to create and perform with iPad. Connect all your pro audio gear to virtually any app in the App Store with the iO Dock.

iPad and App Store are trademarks of Apple Inc., registered in the U.S. and other countries.
